MESSAGE

MESSAGE

afa Adai,
Tirow and
Welcome
Delegates,
Participants,
and Supporters.

It is with great pleasure to meet with all of you this

week for the 31st American Pacific Nursing Leaders Council conference and to have you all join us here as we are celebrating our Nurses' Week.

I am honored to be a part of APNLC in 2009 that once again brings nursing leaders together to strengthen the nursing profession and to collaborate with other professionals while exploring health care issues that affect the Pacific regions today.

This year's conference and nurses' week theme, "Nurses Empowering Lives", sheds light on what nurses do every day from caring for the sick to educating the healthy. Let us join and thank all those nurses who have touched and "empowered" their patients in ways that really mattered to that patient. Because nursing care is required 24 hrs a day, 7 days a week, nurses are in a unique position that can provide empowerment to the lives of their patients.

Let us empower each other this week to work towards exploring and implementing health care solutions so that our islands can deliver the health care services that the people on all the islands deserve.

Thank You,

Bertha Peters Camacho Vice President, CNMI Nursing Association arm Hafa
Adai, Tirow,
and welcome
to the 2009
American Pacific Nursing
Leaders Council Conference
on Saipan. We are pleased
to host visiting nurses from
our Pacific region, including
nurses from American

Governor
Benigno R. Fitial

Samoa, Chuuk, the CNMI, Guam, Hawaii, Kosrae, the Marshall Islands, Palau, Pohnpei, and Yap.

With at least three nursing programs in the CNMI, the nursing profession is highly valued in our local community, with so many of our young adults interested in rewarding careers in the field. We support this important profession for our youth population and urge all interested CNMI residents to pursue a life of service in this vital area of health care.

Lt. Governor Eloy S. Inos

With so many CNMI residents suffering from diabetes and other chronic diseases, nurses play a great role serving our local community, particularly with our increasingly limited resources. It therefore gives us great pleasure to welcome all participants to this

conference and to support the goals and objectives of this conference for the sake of the profession, the health care industry, and the people of our Pacific island jurisdictions.

Thank you for attending this annual conference and please enjoy your stay in the CNMI. Welcome!
